# Sustainable Strategies

## Green houses

## Solar / Green roof

Solar Panels for the daily-use functions

The green roofs are private or semi-private

The green houses represent expositional agriculture to revitalize the polluted soil

# Atmospheres

An architectural rendering of a modern building with a paved walkway and people at sunset. The building features a grid of windows and a prominent walkway. People are walking on the path, and there are trees and streetlights. The sky is a mix of orange and purple, suggesting sunset or sunrise. A large black circle with a white border is overlaid on the left side of the image, containing the word "Atmospheres".
